

Consumptive Use Permitting – Applicant’s Handbook

Table of Contents

1.0	General Provisions
1.1	Definitions
1.2	Acronyms and Abbreviations
1.3	Consumptive Use Permit Program Overview, Objectives, Organization, and Authorizations
1.4	Permitting Procedures
1.5	Permit Duration
2.0	Demonstration of Water Need, Source(s), and Demand
2.1	Demonstration of Water Need
2.2	Source Identification
2.3	Demonstration of Demand
2.4	Reasonable-Beneficial Criteria (SJ and SW)
3.0	Water Resource Impact Evaluation
3.1	Data Collection, Evaluation, and Modeling
3.2	Source Specific Criteria
3.3	Evaluation of Impacts to Water Resources
3.4	Saline Water Intrusion
3.5	Pollution of the Water Resources (SW and SF)
3.6	Existing Off-site Land Uses
3.7	Interference with Existing Legal Uses
3.8	Otherwise Harmful
3.9	Minimum Flows and Levels
3.10	Aquifer Storage and Recovery Systems (SF only)
3.11	Water Reservations
3.12	Public Interest (SJ)
4.0	Monitoring Requirements
4.1	Withdrawal Quantity
4.2	Water Quality (SW and SF)
4.3	Hydrologic and Ecologic Monitoring (SW and SF)
4.4	Compliance Monitoring (SJ and SW)
5.0	Permit Limiting Conditions
5.1	Standard Limiting Conditions
5.2	Special Conditions

Legislative Goals

- A single, uniform definition of “harmful to the water resources” consistent with its usage for CUPs
- A single method for calculating residential per capita water use
- A single process for permit reviews;
- A goal for residential per capita water use for each consumptive use permit

Additional Topics

- Conditions for Issuance
- Consistency with Outstanding Florida Springs legislation
