

CFWI Wetlands Evaluation Approach

- Class I (44)
- Isolated systems
- 6+ historical water level
- Smaller field work
- Update w/Class II
- Data update by ECFTX completion
- Canary in the coal mine

- DMIT directive (107)
- All hydroclasses reviewed
- Long term tracking
- Repeated 5-yrs
- 62-340 determination
- More consistent with CUP
- Complement statistical approach
