

## **CFWI Regional Water Supply Plan Steering Committee and Public Meeting Held Nov. 19**

The 2025 Central Florida Water Initiative (CFWI) Regional Water Supply Plan (RWSP) Work Group held a virtual Steering Committee and public meeting Nov. 19, 2024. The meeting included a presentation of the draft results of the 2025 CFWI RWSP.

Staff with the St. Johns River, South Florida, and Southwest Florida water management districts (Districts) are in the process of preparing the five-year update to the 2020 CFWI RWSP. The draft 2025 CFWI RWSP is anticipated to be available for public review in spring 2025. Analysis and conclusions of the 2025 CFWI RWSP will be presented at the next Steering Committee and public meeting planned for April 2025. The final 2025 CFWI RWSP is scheduled to be approved by the governing boards of the Districts by the end of 2025.

The CFWI Planning Area consists of all of Orange, Osceola, Seminole, and Polk counties and southern Lake County, covering approximately 5,300 square miles. The 2025 CFWI RWSP will identify existing and projected water demands as well as projects and funding sources to meet those demands over the next 20 years.

The presentation slides and recording are available at [CFWI: 2024 meetings](#).
