MAITLAND, Fla., Aug. 9, 2018 — The St. Johns River Water Management District will hold a public workshop to discuss the peer review of Minimum Flows and Levels (MFLs) for water bodies within the Central Florida Water Initiative (CFWI) area. This workshop will include discussion of surface water model peer review plans for MFLs water bodies within the Wekiva Basin.

The district is seeking public comment at this workshop on the district's peer review selection criteria and on the recommended peer review panel for the surface water models that will be used in the determination and assessment of Wekiva Basin MFLs.

WHAT: Public workshop to discuss peer review selection criteria and recommended peer review panel for the surface water models that will be used for Wekiva Basin MFLs in the CFWI.

WHEN: Aug. 16, 2018
10 a.m. to 12 p.m.

WHERE: District's Maitland Service Center
Wekiva and Econ rooms, 2nd floor
601 S. Lake Destiny Road
Maitland, FL 32751

To join the meeting by phone, call 1-888-670-3525 and enter passcode 4366412939#.

Establishing MFLs is an important goal in the district's work of planning for adequate water supplies for today and for future generations while also protecting the district's water resources. The district is setting MFLs for lakes, streams, rivers, wetlands, springs and aquifers.

About the St. Johns River Water Management District

St. Johns River Water Management District staff are committed to ensuring the sustainable use and protection of water resources for the benefit of the people of the district and the state of Florida. The St. Johns River Water Management District is one of five districts in Florida managing groundwater and surface water supplies in the state. The district encompasses all or part of 18 northeast and east-central Florida counties. District headquarters are in Palatka, and staff also are available to serve the public at service centers in Maitland, Jacksonville and Palm Bay.
