

| <b>Table</b> | <b>Proposed Title</b>   | <b>Category</b>                | <b>Category Abbreviation</b> |
|--------------|---|--------------------------------|------------------------------|
| 1            | Principal Representation of NFSEG Model Layers                                      | Hydrostratigraphic-Related     | HSR                          |
| 2            | Summary of Observed and Simulated Groundwater Levels (Feet NAVD88), 2001 and 2009   | Calibration Results Heads      | CRH                          |
| 3            | Summary of Observed and Simulated Vertical Head Differences (Feet), 2001 and 2009   | Calibration Results Heads      | CRH                          |
| 4            | Summary of Observed and Simulated Horizontal Head Differences (Feet), 2001 and 2009 | Calibration Results Heads      | CRH                          |
| 5            | Calibration Statistics--Model-Domain-Wide and Model Layers 1, 3, and 5              | Calibration Results Heads      | CRH                          |
| 6            | Mass-Balance Summary, 2001  | Calibration Results Flows      | CRF                          |
| 7            | Mass-Balance Summary, 2009  | Calibration Results Flows      | CRF                          |
| 8            | Summary of Estimated and Simulated Spring Discharges (cfs), 2001 and 2009           | Calibration Results Flows      | CRF                          |
| 9            | Gage Sequence ID vs USGS Gage ID and Name   | Calibration Results Flows      | CRF                          |
| 10           | Summary of Estimated and Simulated Baseflow Pickups (cfs), 2001 and 2009            | Calibration Results Flows      | CRF                          |
| 11           | Summary of Estimated and Simulated Cumulative Baseflows (cfs), 2001 and 2009        | Calibration Results Flows      | CRF                          |
| 12           | NFSEG Modeled Layer-Wide Ratios of Horizontal-to-Vertical Anisotropy                | Calibration Results Parameters | CRP                          |
| 13           | Sensitivity Parameter Group Descriptions  | Uncertainty Analysis Results   | UAR                          |
