

The Challenges – Teacher Resources

Tri-Tab Fact Book

Materials

- One sheet of 8 1/2- by 11-inch paper per student
- Scissors
- Markers or crayons

Directions

1. Fold paper in half lengthwise (hotdog style).
2. Divide folded paper into three equal sections and cut each section only halfway to the fold (see below).
3. Label each section as shown below and draw a picture illustrating water in each of the forms solid, liquid, and gas.
4. Under each flap, write at least three facts you have learned about water in each of its three states.
