Making a Call

There are many ways to make a call using Mitel.

1. Click "Contacts" to view a list of contacts. Place a call by double-clicking the contact's name.

☆ Transfer 2. Click "Recent" to view a list of recent calls. Place a call by double-clicking the contact's name.

3. Search for contacts by entering a first or last name in the search bar above your name. A list of matching names will appear to the right. Place a call by double-clicking the contact's name.

4. Search for a contact by phone number. Place a call by double-clicking the contact's name.

If you make a call that requires you to maneuver through a menu, click the dial pad icon to enter numbers.

Using Voicemail

Click "Voicemails" to access a list of recent voicemails.

Listen to a voicemail by double-clicking the contact's name. A list of all voicemails from the contact will open to the right.

If you have questions or need more help, contact the Help Desk at 4357 (help) or helpdesk@sjrwmd.com.
