8. Monthly Residential Reclaimed Bills and Rates	46

Introduction

This survey covers utility rates currently in effect from October 1, 2018, through September 30, 2019, for the cities and counties within the St. Johns River Water Management District (SJRWMD).

This survey includes 120 systems or subsystems that supply 84% of public supply water needs and serve 92% of the population within the boundaries of SJRWMD. In order to be included in the survey, a water supply system needed to satisfy one or more of the following criteria:

- Rate structure information is publicly available
- Water and sewer charges needed to be charged explicitly and not be included in the lot rent (e.g., most RV parks)

Sources:

- For private, municipal, and county systems, SJRWMD visited the respective website and where necessary (e.g., "no explicit adoption rate," "rate structures in effect for two years or more") verified rate structures via telephone.
- For private utilities regulated by the Public Service Commission, SJRWMD relied on the 2018 Comparative Rate Statistics: <http://www.psc.state.fl.us/Publications/Reports#>
- For utilities owned by the Florida Governmental Utility Authority, current rates are posted on its respective website: <http://fgua.com/customers/rates-and-fees/current-rates/>

SJRWMD staff may find rate data in Excel files on an internal server here: <U:\Water Supply Planning\Water Supply Planning\Water Rates\Local Rates 2018-2019>. This information can also be made available via a request to SJRWMD staff.

General notes for this report:

While there are five regions identified for data reporting purposes in SJRWMD, there are three main areas for regional water supply planning (Figure 1).

- Region 1 includes Alachua, Baker, Bradford, Clay, Duval, Flagler, Nassau, Putnam, and St. Johns counties (SJRWMD portions).
- Region 2 includes northern Lake and Marion counties (SJRWMD portions).
- Region 3 includes southern Lake, Orange, Osceola, and Seminole counties (SJRWMD portions).
- Region 4 includes Brevard, Indian River, and Okeechobee counties (SJRWMD portions).
- Region 5 includes Volusia County.
- NFRWSP = North Florida Regional Water Supply Plan. Joint partnership with the Suwannee River Water Management District that encompasses Region 1 of SJRWMD.

2019 St. Johns River Water Management District Annual Utility Rate Survey

- CSEC RWSP = Central Springs and East Coast Regional Water Supply Plan. CSEC RWSP encompasses Regions 2, 4, and 5 of SJRWMD.
- CFWI RWSP = Central Florida Water Initiative Regional Water Supply Plan. Joint partnership with the South Florida and Southwest Florida water management districts that encompasses Region 3 of SJRWMD.

4. Monthly Residential Water and Sewer Bills and Rates

2019 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Residential Water and Sewer Bills and Rates effective through September 2019 (excluded utilities not offering sewer service). Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable; utilities charge bulk rate.

2019 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Residential Water and Sewer Bills and Rates effective through September 2019 (excluded utilities not offering sewer service). Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable; utilities charge bulk rate.

2019 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Residential Water and Sewer Bills and Rates effective through September 2019 (excluded utilities not offering sewer service). Notes: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons. N/A = Not applicable; utilities charge bulk rate.

6. Monthly Commercial Water and Sewer Bills and Rates

2019 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Commercial Water and Sewer Bills and Rates effective through September 2019 (excluded utilities not offering sewer service to commercial accounts). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.

2019 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Commercial Water and Sewer Bills and Rates effective through September 2019 (excluded utilities not offering sewer service to commercial accounts). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.

2019 St. Johns River Water Management District Annual Utility Rate Survey

Monthly Commercial Water and Sewer Bills and Rates effective through September 2019 (excluded utilities not offering sewer service to commercial accounts). Note: Average combined water/sewer rate per thousand gallons may be lower at higher volumes because of sewer caps. Most utilities stop charging the sewer rates per thousand gallons after 10,000 gallons.
