

APPENDIX J – AQUIFER AND CONFINING UNIT PROPERTIES

Figure 1. Horizontal hydraulic conductivity in layer 1 within the focus area.....	1
Figure 2. Vertical hydraulic conductivity in layer 2 within the focus area.	2
Figure 3. Horizontal hydraulic conductivity in layer 3 within the focus area.....	3
Figure 4. Horizontal hydraulic conductivity in layer 4 within the focus area.....	4
Figure 5. Vertical hydraulic conductivity in layer 5 within the focus area.	5
Figure 6. Horizontal hydraulic conductivity in layer 6 within the focus area.....	6
Figure 7. Horizontal hydraulic conductivity in layer 7 within the focus area.....	7
Figure 8. Leakance in layer 2 (ICU) within the focus area.	8
Figure 9. Leakance in layer 5 (MCU I) within the focus area..	9
Figure 10. Upper Floridan Aquifer (UFA) transmissivity within the focus area.	10
Figure 11. Lower Floridan Aquifer (LFA) transmissivity within the focus area.....	11

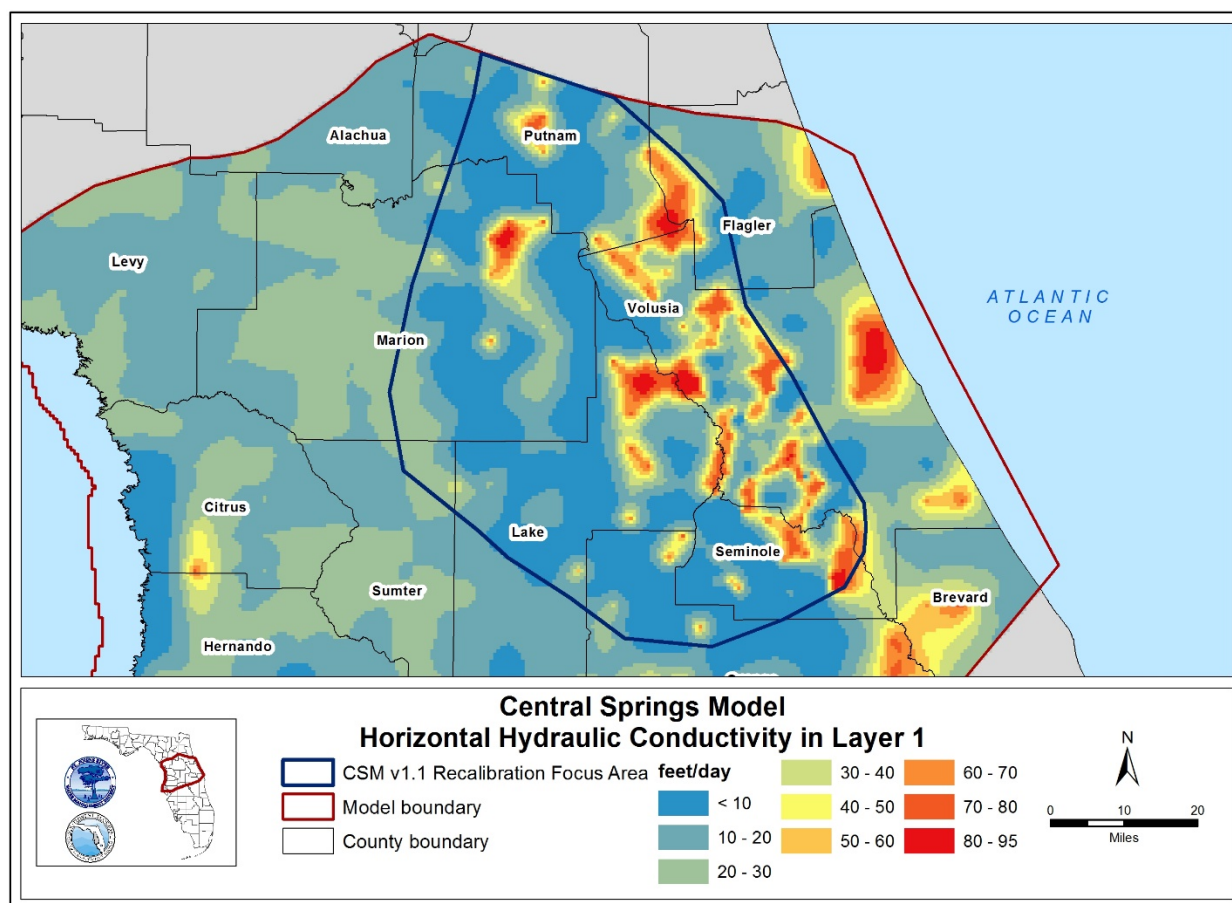

Figure 1. Horizontal hydraulic conductivity in layer 1 within the focus area.

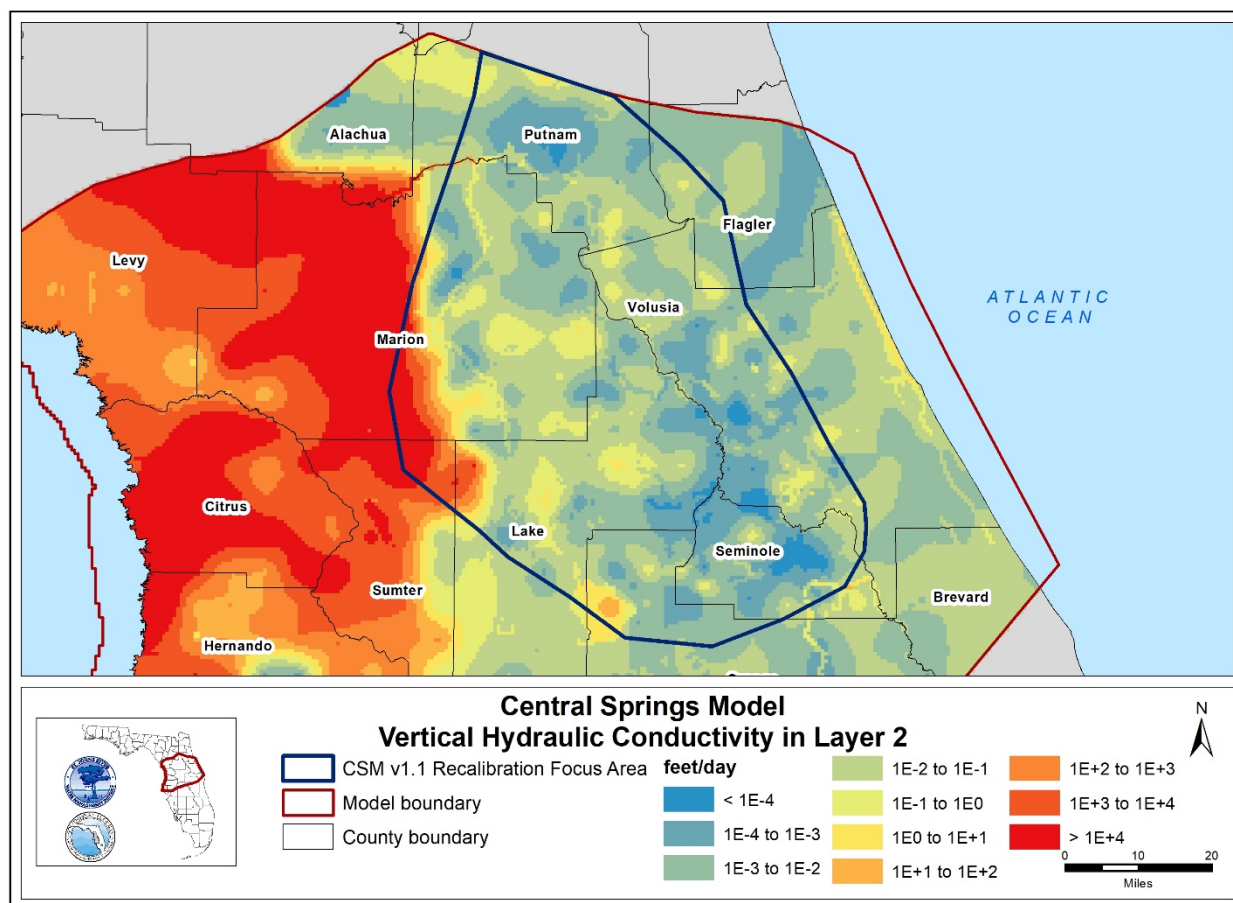

Figure 2. Vertical hydraulic conductivity in layer 2 within the focus area.

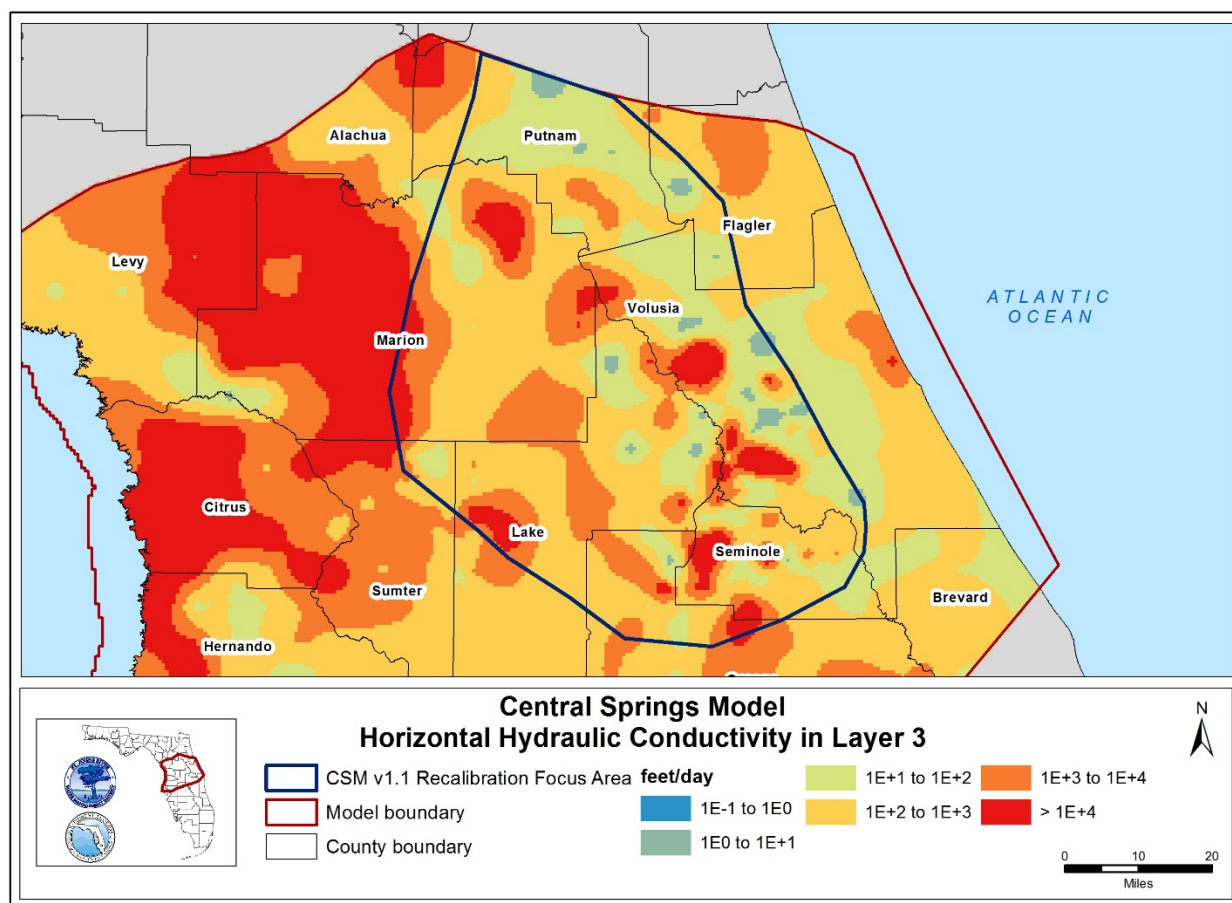

Figure 3. Horizontal hydraulic conductivity in layer 3 within the focus area.

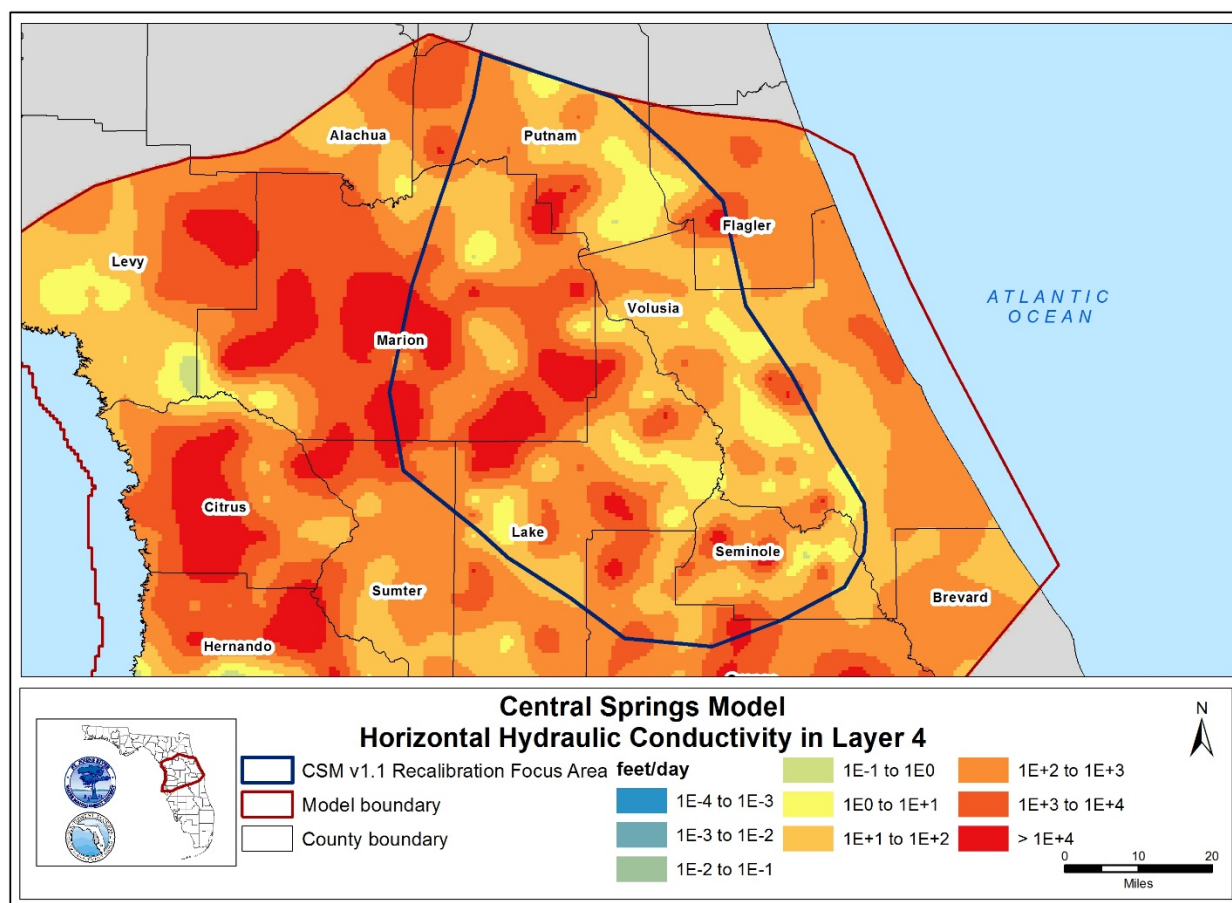

Figure 4. Horizontal hydraulic conductivity in layer 4 within the focus area.

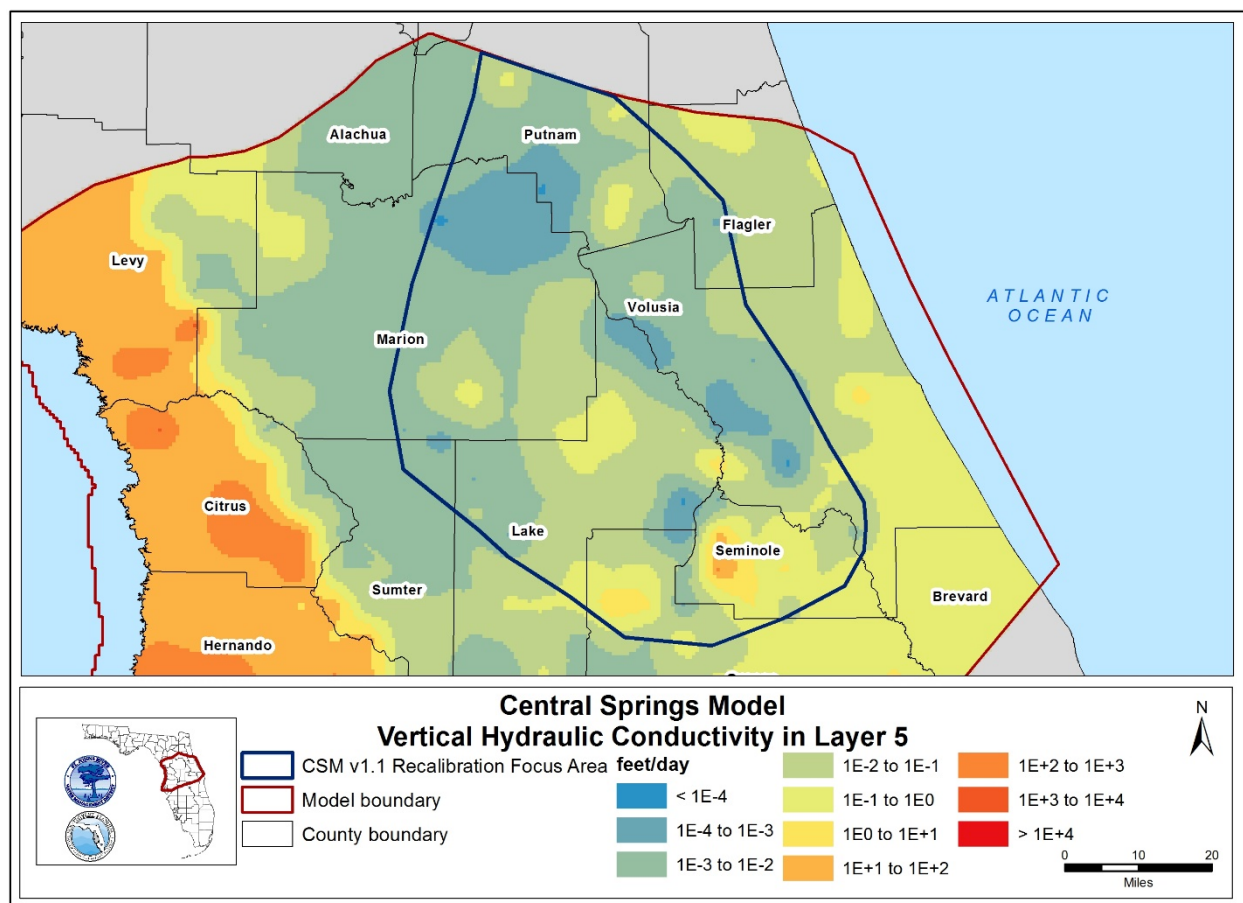

Figure 5. Vertical hydraulic conductivity in layer 5 within the focus area.

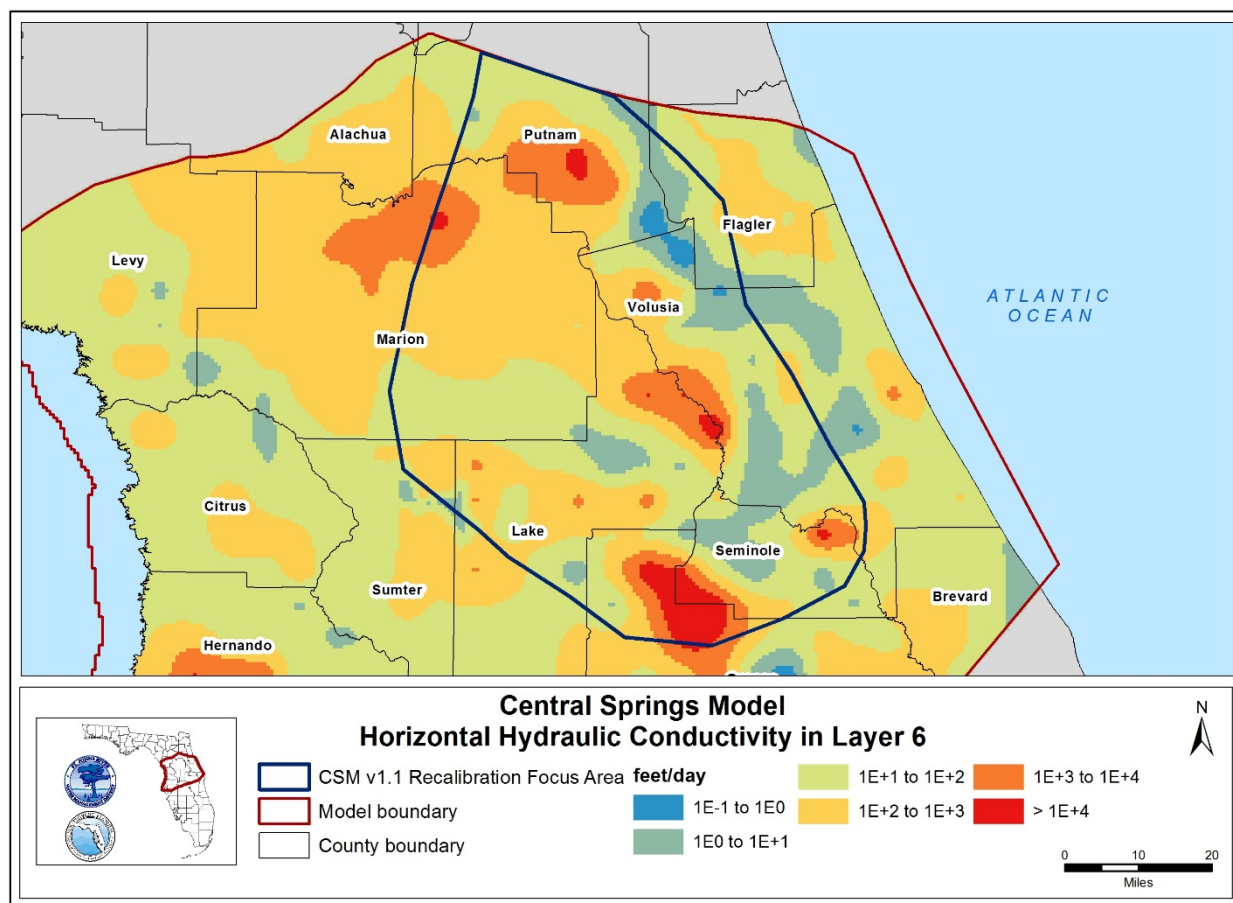

Figure 6. Horizontal hydraulic conductivity in layer 6 within the focus area.

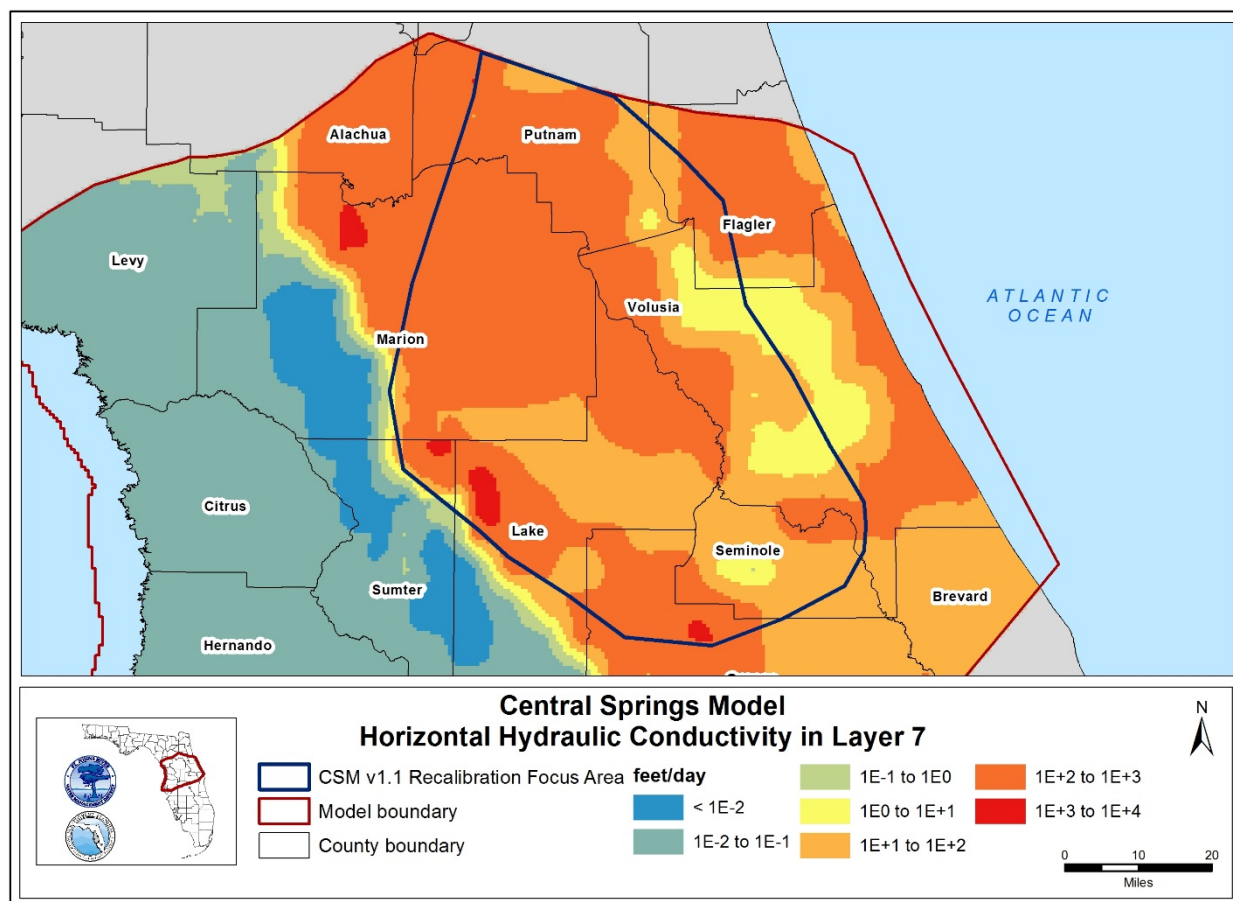

Figure 7. Horizontal hydraulic conductivity in layer 7 within the focus area.

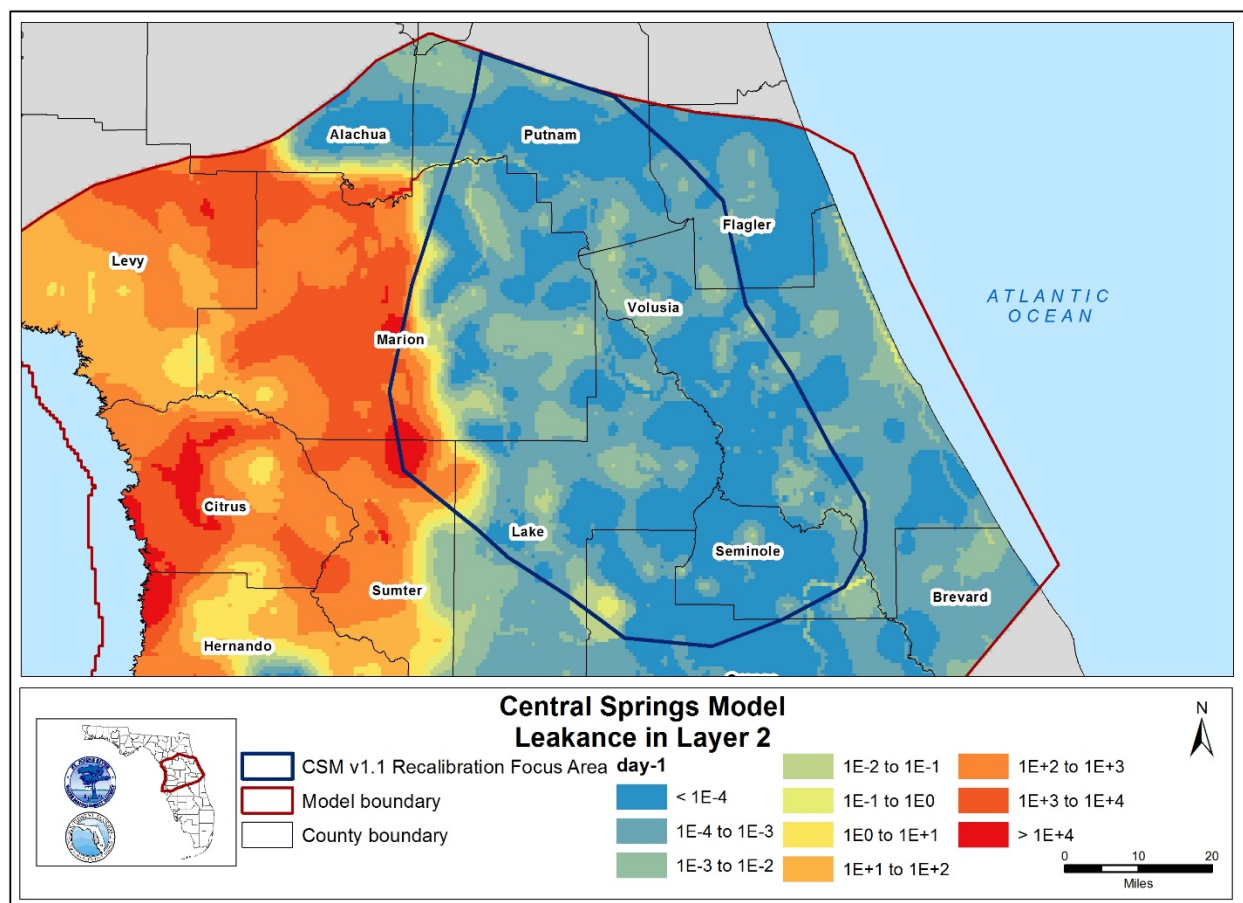

Figure 8. Leakance in layer 2 (ICU) within the focus area.

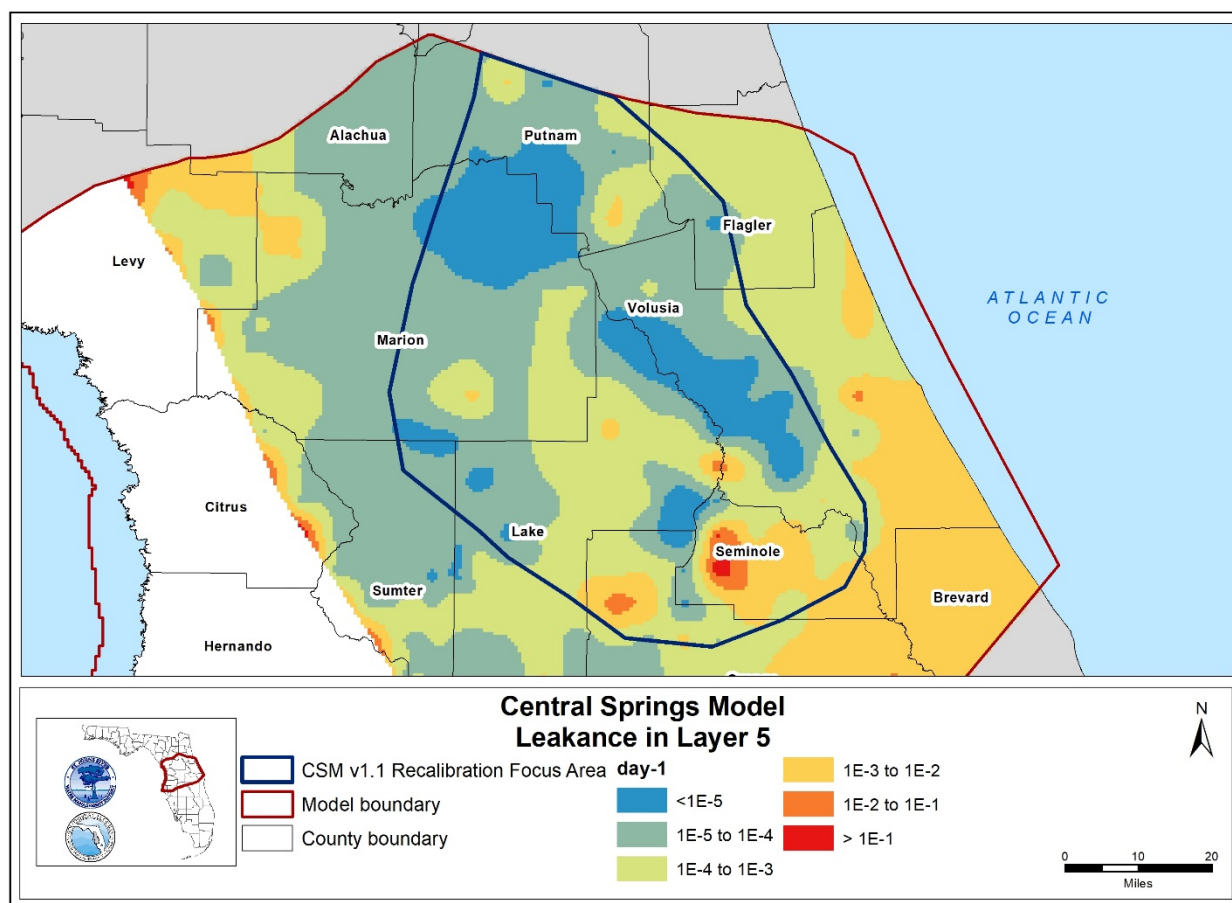

Figure 9. Leakance in layer 5 (MCU I) within the focus area. Note: No leakance values are provided in the western portion of the model domain where the Middle Confining Unit I (MCU I; layer 5) is absent.

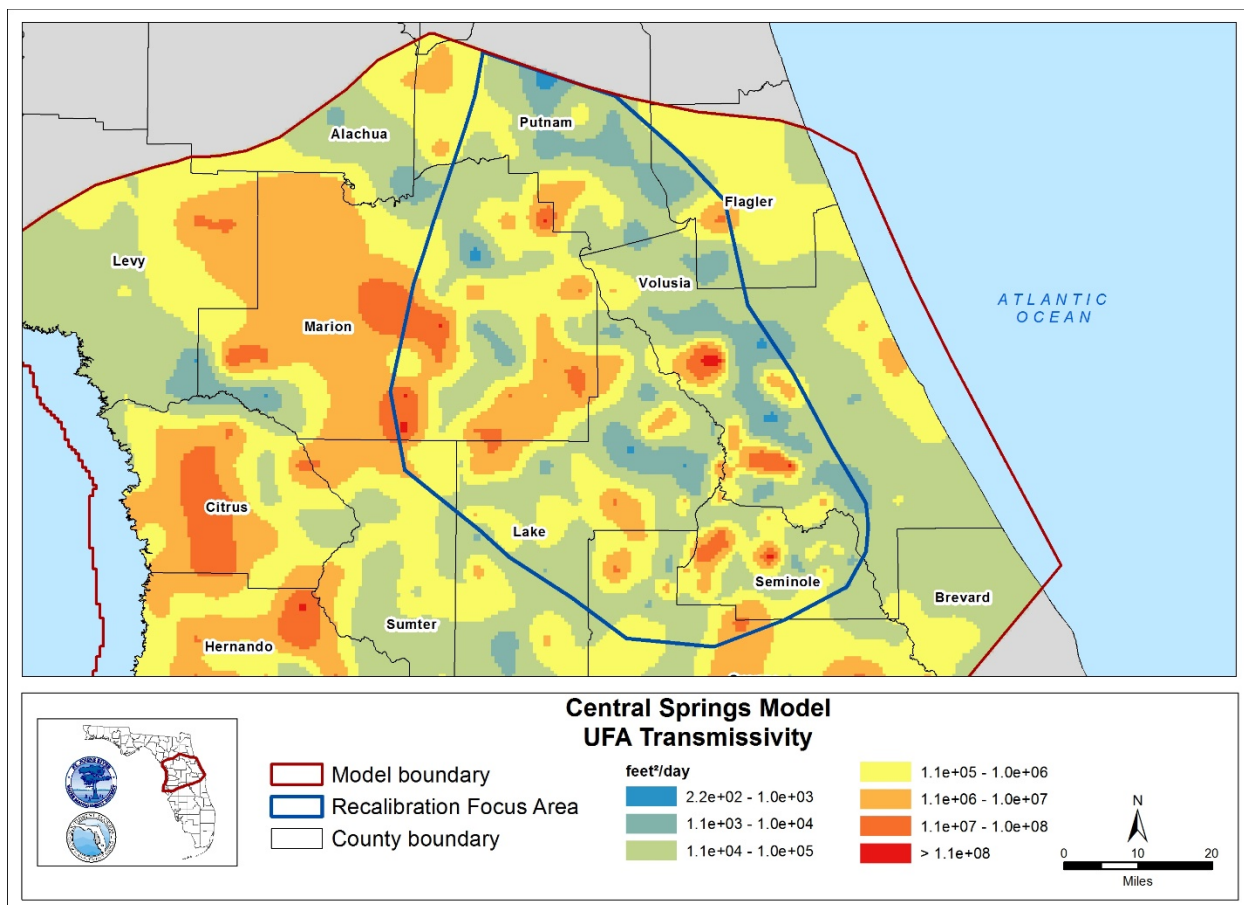

Figure 10. Upper Floridan Aquifer (UFA) transmissivity within the focus area.

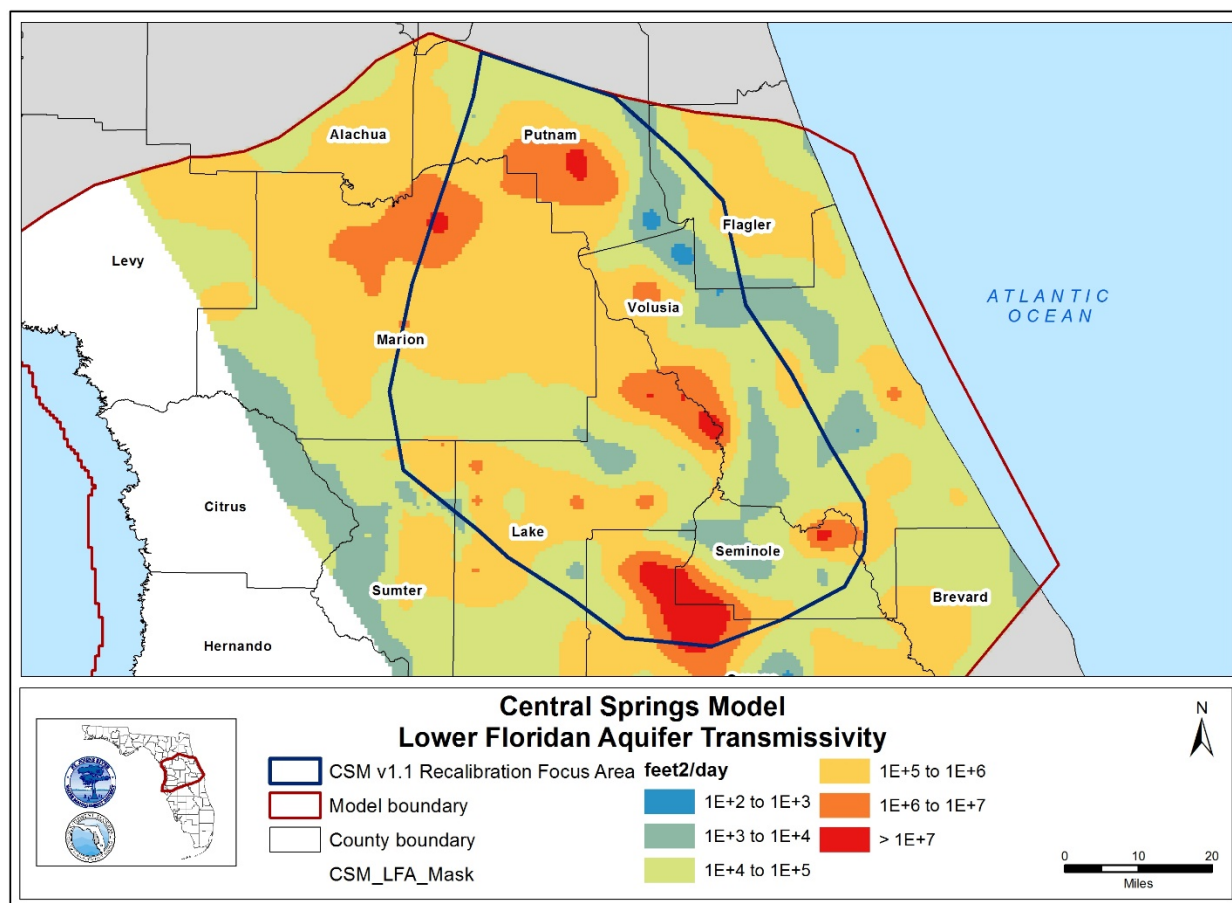

Figure 11. Lower Floridan Aquifer (LFA) transmissivity within the focus area.
